

Roma 09/10/2021

**Medical Certificate COVID-19 FREE for SARS-COV2
and good health**

I certify that **MICHAEL PHILIP THOMAS**

Born on 01/02/2009

PASSPORT/ ID CARD N°: **644279786**

has undergone a **MOLECULAR NASOPHARYNGEAL SWAB RT-PCR for SARS-CoV-2
on 09/10/2021 - N° LA21- 62519**

The method used analyses the following specific genes for SARS-CoV-2:

Orf8 and RdRP with Sensitivity: $\geq 97\%$ (100 gEq/ml or 2 copies/react) and Specificity: $\geq 97\%$

Instrument PCR and extraction: Starlet (Hamilton); CFX96 (Biorad)

RESULT OF RT-PCR: **NEGATIVE** for the presence of SARS-COV2.

I submitted a clinical evaluation with health self-certification, validated by clinical videot, and I certify that the patient is in good health and not affected by specific symptoms of COVID-19 and

Mr. **MICHAEL PHILIP THOMAS** is **COVID FREE** by Molecular Nasopharyngeal Swab (viral genome)

(SARS-COV2 MOLECULAR SWAB is intended for qualitative detection of genes Orf8 and RdRP of SARS-COV2 and can be used to diagnose or exclude SARS-COV2 with clinical data)
